## Welcome Upland Game Bird Hunters!

**Welcome to the Montana Fish, Wildlife & Parks Upland Game Bird Enhancement Program (UGBEP).** The purpose of this program is to enhance upland game bird habitats on lands open to free public hunting. FWP partners with private landowners and other individuals, groups, and organizations to improve habitat on private and public lands. With nearly 350 active contracts, Montana landowners and conservation organizations are conserving and enhancing almost 400,000 acres of upland game bird habitat while providing nearly 760,000 acres for public upland game bird hunting.

## New for 2015

**FWP is pleased to offer game bird hunters a new and improved UGBEP Projects Access Guide.** In previous years, the Guide contained points on the maps to represent general project locations. This year, maps will depict boundaries of private lands enrolled in the UGBEP. Once hunters have obtained the landowner's permission to hunt, the maps with access boundaries will serve as an invaluable tool to aid upland game bird hunters to navigate to UGBEP project areas. Enhancement projects located on public lands or lands enrolled in FWP's Block Management Program are now represented by 2 different point symbols. For more details, see the following section "How to Use this Guide."

**Open Fields (OF) for Game Bird Hunters continues to expand enrollment in 2015.** Open Fields supports retention of CRP on private lands open to walk-in game bird hunting in the fall only. No further permission is required from the landowner. Thanks to nearly 140 landowners, over 43,000 acres of private lands have been enrolled in Open Fields since 2012. FWP anticipates additional enrollment opportunities in the near future.

**UGBEP Projects Access Guide maps are available as geospatial PDF maps.** When downloaded on devices such as "smart" phones or tablets, these PDF

maps allow visitors to dynamically visualize their position in the field relative to important features on the map, such as roads, towns, and project boundaries. Once downloaded to the device, no Internet or cellular connection is required. For more information and to download the georeferenced maps, visit the UGBEP Web page at [fwp.mt.gov/ugbep](http://fwp.mt.gov/ugbep).

## 2015 Notice to Hunters

Be aware that some parcels of land enrolled in Open Fields may be newly-seeded stands of CRP or may have recently undergone maintenance provisions that include haying or grazing activities. In some instances, habitat on some parcels may not meet hunter expectations. Please keep in mind that these lands are enrolled in long-term contracts for up to 10 years, so subsequent years can be expected to provide improved habitat.

## How to Use this Guide

The UGBEP Projects Access Guide contains 2 key sections: (1) Regional Information Tables and (2) Projects Maps. Together, these sections will help hunters locate project areas and the method used to obtain permission to hunt, when applicable. Every project found on the maps is labeled with a project number and is symbolized to indicate the type of permission needed prior to accessing the project area. A description of the symbols follow:

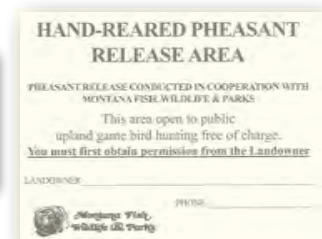

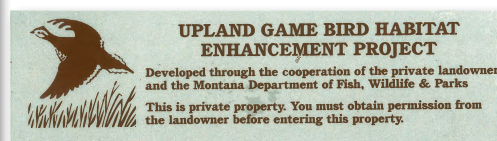

### Private Lands Symbols

Black polygon with hatch marks: permission needed, refer to tables for the method to contact landowner.

Brown polygon with hatch marks: Walk-in game bird hunting, no further permission needed.

Green circle: Project is located on land enrolled in Block Management. Refer to tables for Block Management Area information.

## WATCH FOR THESE SIGNS

## Public Lands Symbols

Brown triangle: Accessible public land, no permission needed

Orange triangle: Accessible public land, contact agency for reservations.

The Map Index, located on the back page, provides hunters with a statewide overview of project locations relative to Montana's counties. Grids containing UGBEP projects are labeled with the Map Page number. This number corresponds to the map page in the Guide. Map Pages also contain greater detail about the project areas, including nearby roads, private land boundaries, projects located on public lands, or projects located on Block Management Areas. All projects found on the maps are labeled with a project number(s) that corresponds to a tabular description in the Regional Information Tables.

Project numbers are located in the Regional Information Tables according to FWP's Wildlife Administrative Region. To locate the project number in the tables, use the Map Index to first determine in which Region the project is located, then refer to the Regional Information Tables that contain detailed project information, including the method to obtain permission to hunt, cooperator name, project termination date, project/enhancement types, access acreage, and associated Map Page. Hunters can also refer to the tables first to select a project they are interested in, then refer to the Map Page number to locate the project on the map.

**Obtaining landowners' permission to hunt upland game birds is required prior to hunting or entering any private land project area.** Exception: Some projects allow walk-in bird hunting only with no further permission needed.

***UGBEP Project Maps found in this publication are intended only as a guide. It is every hunter's responsibility to know the land ownership of the area he or she intends to hunt and any land use restrictions that may apply there.***

## Helpful Tips

FWP wants to ensure landowners, hunters (and their dogs) have rewarding experiences through the UGBEP. The following tips are intended to provide hunters with some additional considerations.

Respect private lands. Possession of the maps found in the Guide does not constitute legal access to the private land enrolled in the UGBEP program. Hunters must always obtain landowner's permission unless noted otherwise in the Guide.

Firearms may not be discharged within ¼ mile of an inhabited dwelling or outbuilding without permission of the inhabitant.

A statewide hunting access guide listing all of the lands enrolled in the Block Management Program is available annually on August 15.

Learn more about the various access opportunities Montana has to offer. Visit FWP's Interactive Hunt Planner at: <http://fwp.mt.gov/gis/maps/huntPlanner/>

## Your Opinion Matters

FWP wants to hear your thoughts on the Upland Game Bird Enhancement Program. Please take a moment to participate in the UGBEP online survey at:

<http://fwp.mt.gov/ugbepHunterSurvey>

*We look forward to hearing from you.*

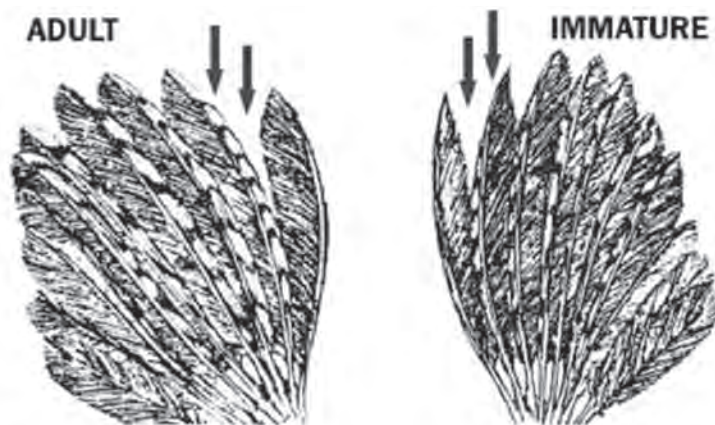

## Age Your Game Bird

Some hunters want to know the age of the upland game birds they harvested - whether the birds hatched the previous spring or if they have reached adulthood. Upland game birds in Montana (with the exception of ring-necked pheasants) can be effectively aged by looking at their wings. Ring-neck pheasant roosters show age differences in their spur.

As a group, the prairie grouse species, mountain grouse, and partridge species molt (replace) their wing and tail feather in sequence rather than all at once, as is the case with waterfowl. Each fall, young-of-the-year birds grow wing feathers of adult size during the "post juvenile" (first) molt.

### Game Birds (except ring-necked pheasants)

In upland game birds other than ring-neck pheasants, the two outer primary feathers on the wing of the young bird are not replaced until one year later and annually thereafter. Thus, the two outer primary feathers on a juvenile bird's wing differ in shape from those of an adult, as well as from other feathers on the wing, being more pointed at the tip and sometimes narrower.

Wings of adult and immature game birds

### Ring-necked Pheasants

Unlike Montana's other upland game birds, ring-necked pheasants often replace the two outer primary feathers during the post-juvenile molt. As a result, immature birds display primary feather of adult shape and closely resemble adults their first fall.

The spur on the back of a male pheasant's leg often is used as a criterion of age. Early in the fall, an adult pheasant will exhibit a much longer spur than a juvenile. However, the spur of a young male bird continues to grow all fall and some "overlap" time exists between the spur length of young and old birds late in the fall. Therefore, the color, shape, and texture of the spur during the fall often helps determine the age.

Ring-necked pheasants can be aged by their spurs.

Pheasant Spur Characteristics			
	Color	Shape	Texture
Adult	Very dark	Very sharp	Hard, glossy surface
Young	Light	Blunt; usually straight along edges	Soft, dull surface

# HELP CONTROL NOXIOUS WEEDS IN MONTANA

Montana is being invaded by noxious weeds accidentally brought here from other parts of the country and around the world. The natural enemies of these plants - diseases and insects - that normally keep these weeds under control in their native homeland didn't make the trip over. Due to the lack of natural controls, combined with aggressive growing characteristics, controlling noxious weeds is very difficult once they've gained a foothold. In Montana, noxious weeds are affecting rangelands and in some cases, reducing the quality and quantity of wildlife habitat. Every year the costs associated with controlling weeds in Montana increases for private landowners, local, state and federal agencies.

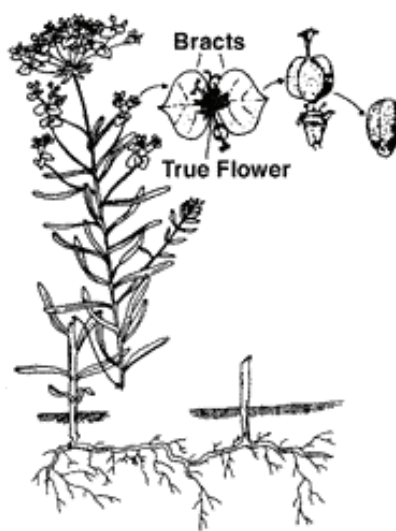

## YES, YOU CAN HELP!

- Learn to identify the types of noxious weeds. Helpful information is available at county weed and extension offices.
- Thoroughly wash your vehicle, especially the underside, before going afield.
- Avoid soil disturbance by traveling only on established roads and trails.
- Hunters using packstock in the hills should use only certified, weed-seed free hay. County extension offices can provide a list of local producers.
- Avoid driving through weed patches and limit your use of weed-infested areas.
- Notify private, state or federal landowners if you encounter weeds on their property.

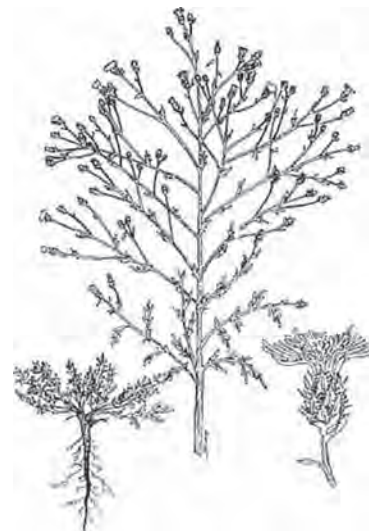

## ***NOXIOUS WEEDS ARE EVERYBODY'S PROBLEM***

# ©TOM ROSTER'S 2013 NONTOXIC SHOT LETHALITY TABLE©

Proven Nontoxic Shot Loads For Waterfowl & Upland Game Birds <sup>1</sup> Load Velocity: 1,225 - 1,600 FPS ACTIVITY	Typical Shooting Range of Activity (Yards)	Most Effective Nontoxic Shot Size(s) For Birds Listed Under ACTIVITY At The Distances Listed In The Second Column	Minimum Load Weight (Ounces)	Minimum Pellet Hits Needed on Lethal Areas for Clean Kills	Minimum Pattern Count Needed at Any Distance for Clean Kills (# of Pellets in 30" Circle)	Most Effective Choke(s) (Given in Lead Shot Choke Designations)	NOTE: The pellets in the steel shot loads listed in this table were traditional, highly spherical ball-shaped pellets of ~ 7.86 g/cc density and 90-95 DPH hardness. The HEVI-Shot pellets were of 12.0 g/cc density and slightly harder than traditional steel pellets.
Large Geese At Long Range Giant, Western, Atlantic and Interior Canadas	50-65 50-70	Steel BBB to T HEVI-Shot 2 to B	1-1/4 1-1/2	1-2 1-2	50-55 50-55	Improved Modified Improved Modified, Full	
Large Geese Over Decoys	35-50 35-50	Steel BB to BBB HEVI-Shot 2 to B	1-1/4 1-1/2	1-2 1-2	50-55 50-55	Improved Cylinder, Modified Improved Cylinder, Modified	
Medium/Small Geese Long Range Snow, White-fronted, Lesser Canadas	50-65 50-65	Steel BB to BBB HEVI-Shot 2	1-1/4 1-1/2	1-2 1-2	60-65 60-65	Improved Modified Improved Modified, Full	
Medium/Small Geese Over Decoys	35-50 35-50	Steel 2 to BB HEVI-Shot 4 to 2	1-1/8 1-1/4	1-2 1-2	60-65 60-65	Light Modified, Modified Improved Cylinder, Modified	
Large Ducks At Long Range Mallard, Black, Pintail, Goldeneye, Gadwall	45-65 45-65	Steel 2 to 1 HEVI-Shot 4	1-1/8 1-1/4	1-2 1-2	85-90 85-90	Improved Modified, Full Improved Modified, Full	
Large Ducks Over Decoys	20-45 20-45	Steel 6 to 2 HEVI-Shot 6 to 4	3/4 - 1 1-1/8	1-2 1-2	85-90 85-90	I.C. (20-35 Yds), Mod. (35-45 Yds) I.C. (20-35 Yds), Mod. (35-45 Yds)	
Medium Ducks Over Decoys Wigeon, Scaup, Shoveler	20-45 20-45	Steel 6 to 3 HEVI-Shot 6 to 4	1 1-1/8	1-2 1-2	115-120 115-120	I.C. (20-35 Yds), Mod. (35-45 Yds) I.C. (20-35 Yds), Mod. (35-45 Yds)	
Small Ducks Over Decoys Teal, Ruddy, Bufflehead	20-45 20-45	Steel 6 to 4 HEVI-Shot 6	1 1-1/8	1-2 1-2	135-145 135-145	Mod. (20-35 Yds), Full (35-45 Yds) Mod. (20-35 Yds), Full (35-45 Yds)	
Ring-Necked Pheasants	20-50 20-50	Steel 3 to 2 HEVI-Shot 6 to 4	1 1-1/8	2-3 2-3	90-95 90-95	I.C. (20-30 Yds), Mod. (30-50 Yds) I.C. (20-30 Yds), Mod. (30-50 Yds)	
Turkeys (Head and Neck Shots)	20-40	Steel 4	1-1/4	3-4	210-230	Full or Extra Full	
Northern Bobwhite Quail	20-30	Steel 7	5/8	1-2	170-190	Imp. Cyl., Light Modified	
Swatter Load For Wounded Birds	20-30	Steel 7 to 6	1	1	175	Improved Modified, Full	

This table summarizes Tom Roster's analyses to date of the waterfowl lethality data bases for certain of the 15 U.S. steel versus lead waterfowl shooting tests run between 1968 & 1982 & one steel-only pheasant shooting test plus lethality data bases owned by ammunition companies for birds taken with nontoxic shotshell loads Roster tested for them & the CONSEP organization. Note: Steel #BBB (.190") and HEVI-Shot #2 (.150") have exhibited the best all-around performance for taking geese; steel #3 (.140") and HEVI-Shot #4 (.130") the best all-around performance for taking ducks; and steel #2 and HEVI-Shot #4 the best all-around performance for taking ring-necked pheasants.

<sup>1</sup>These findings are derived from testing 3" 20 gauge; 2 1/4", 3" and 3 1/2" 12 gauge; and 3 1/2" 10 gauge steel loads; plus 3" 20 gauge and 2 1/4" and 3" 12 gauge HEVI-Shot loads.

If you know of a violation, try to report as much information as possible and **AS SOON AS POSSIBLE**.

Violation location: \_\_\_\_\_

Violator's name(s), if known \_\_\_\_\_

Did you witness violation?\_\_\_\_\_ If not, how do you know about it?\_\_\_\_\_

What is the license plate number? \_\_\_\_\_ What state/province? \_\_\_\_\_

Where is violator now? \_\_\_\_\_

What direction was violator headed? \_\_\_\_\_

Additional Notes:

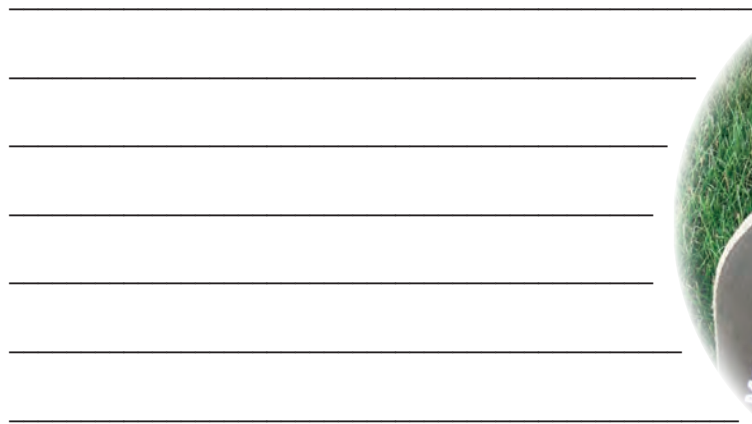

[illegible]

## Make the call!

**1-800-TIP-MONT**

**1-800-847-6668**

## A circular inset image in the bottom right corner shows a black and white speckled dog, possibly a Weimaraner, sitting in green grass. The dog is holding a dark, round object in its mouth. The object has a white logo that reads "Montana Upland Game Bird Enhancement Program" with a stylized bird icon.

## 2015 Sunrise-Sunset Tables For Determining Hunting Hours

These tables, including adjustments for daylight savings time, are the official sunrise-sunset tables adopted by the Montana Fish, Wildlife & Parks Commission for hunting in Montana. Authorized hunting hours for the taking of upland game birds and falconry begin one-half hour before sunrise and end one-half hour after sunset each day of the hunting season. **(Do not use other sources.)**
